

High Torque Starter Motors

RAC301MDB

Direct Replacement for original. Replaces small pinion only.

Jaguar, designed to fit all XK models and is a direct replacement for the original unit. The unit is fitted with a multi-drilled bracket that can be removed and refitted for easier installation in tight spaces. Strong, powerful, offset gear-reduced starter motor, delivering huge cranking torque through a set of steel internal gears. Lightweight, compact and durable this unit starts the engine faster with immense power, whilst drawing less current from the battery.
