

High Torque Starter Motors

RAC802BLK

Black Edition Slimline! Now available in matt black to mimic the original Lucas type inertia starter motor. Replaces Lucas LRS00102 4.5" Inertia Type Starter Motor.

Slimline starter in matt black for Classic Mini and Ford where the original inertia starter motor was fitted. Deceptively powerful, this unit features an epicyclic in-line gear box which delivers extra power when engaged and an internal solenoid. Lightweight, durable and easy to fit, this unit delivers maximum power with minimum efficiency. Designed for negative earth vehicles only.
